

KEMTEX GASKET REMOVER 400ML

DESCRIPTION

- Particularly reactive paint stripper for removing highly cross-linked coatings, such as: It is tixotropic, does not drip and therefore has greater power on vertical surfaces.
- It comes in a spray can and allows for precise application to the desired areas.
- It also allows interventions in hard-to-reach places.
- Pressurised container, protect from sunlight. Do not expose to temperatures above 50°C. Do not pierce or burn, even after use.
- Do not use for any other purpose than that for which the product is intended. Store only in well-ventilated areas. Keep out of reach of children.

USAGE

- Removal of polysulphide and silicone seals from casings.
- Removal of seals on double glazing.
- Removal of temporary markings.
- For professional use, car manufacturing, construction, marine industry, maintenance, etc...
- Shake before use. Spray on the surfaces to be stripped, let it soak in. Remove with a spatula.
- Repeat the operation in case of thick layers or in case of residues on porous surfaces.
- Recover and dispose of all residues in accordance with the regulations in force.
